

**Air Tasking Order Instructions for  
A99 Mission Sorties (LLRS etc.)**

<b>ATO</b>	<b>Day Sortie to Be Flown</b>	<b>Last Day to Submit Sortie</b>
1	Wednesday thru Friday	0700 Central Time Monday Prior
2	Saturday thru Tuesday	0700 Central Time Thursday Prior

In case of Monday holiday submit sorties on Sunday

In case of Thursday holiday submit sorties on Wednesday

**Sorties must be Green in WMIRS prior to departure**

There are two ATO groups per week. One group is Wed thru Fri and the other is Sat thru Tue. I recommend planning your sorties for the first day of the respective cycle (Wed or Sat). If for some reason you cannot fly on the scheduled day you will have to call NOC at 334-953-5352 to obtain approval to fly on one of the remaining days in the ATO cycle you are in. After hours and on weekends you will need to talk to the on call duty officer to reschedule. If you are planning your sortie on the last day of the cycle (Fri or Tues) and need to reschedule you will have to resubmit for the next ATO cycle which means you will have to refer to the above chart. This is an Air Force requirement.

If you fly an unapproved sortie (yellow in WMIRS) you will not have the FTCA/FECA coverage and will have to fly as a corporate mission which also means that you may be liable for all expenses incurred.
